

HVLT FIREWISE

REFLECTIVE SAFETY ADDRESS PLACARD ORDER FORM

Homestead Valley is coordinating with Southern Marin Fire District to mobilize Homestead Valley residents to install reflective safety address placards

Reflective Safety Address Placards ensure first responders can easily locate your home

Placards will be installed on existing fence/post, a steel stake, or 4x4 wooden post set in concrete at the street level of your home or parcel. This is free for HV seniors (65+ self-qualified). For all other HV residents, a donation is requested at \$20 for existing fence/post, at \$50 for metal stake, at \$150 for 4x4 post in concrete. Orders may take up to 6 weeks.

- Please check box if you are a self-qualified senior
- Please check box for using-existing-fence/post (note: to be verified during consultation)
- Please check box for steel stake
- Please check box for wood post and concrete

A HVLTL/HVCA volunteer will contact you prior to installation for a consultation.

To order your reflective address placard, please fill in the information below or online at www.HVTL.org
